

REMARKS

- 1) In accordance with 37 C.F.R. §1.121 (as amended on 11/7/2000) the substitute specification and amended abstract above are shown on separate page(s) marked up to show all the changes relative to the previous version of those sections.
- 2) The reason for the substitute specification is that the word "radiator" has been replaced with the more technically accurate substantially equivalent term "heatsink" throughout the specification, claims and abstract. One having ordinary skill in the art would clearly recognize this equivalence.
